# Propeller Shafts (inches)

Our propeller shafts can be manufactured from bright ground 316 or F51 Duplex Stainless Steel, as available, and supplied in metric or imperial sizes. These shafts can be machined with either 1:10, 1:12 or 1:16 tapers as standard. They are supplied with key, nut and split pin ready for installation, The inboard end can be machined to your specification at extra cost or left blank as standard. 1:14 and 1:20 tapers carry a £25 surcharge and completely non-standard tapers have a higher surcharge, which will be advised at time of order.

Specify diameter "D", overlength "L", taper, and additional requirements when ordering.

All shafts are precision straightened

IMPERIAL SHAFTS: Based on 3ft/ 914 mm overall length 'L', includes Key, BSF, Nut & Split Pin:

# Propeller Shafts (millimeters)

All shafts are precision straightened

**METRIC SHAFTS: Based on 1000 mm overall length 'L'. Includes Key, Metric Nut and Split Pin:**

SHAFT diameter 'd'	Dimensions in mm			SINGLE TAPER 1 IN 10	EXTRA PER 300mm	EXTRA FOR DOUBLE TAPER
	h	i	k			
20mm	45	25	6	£160.00	£20.00	£60.00
22mm	47	25	6	£210.00	£33.00	£60.00
25mm	55	25	6	£172.00	£25.00	£60.00
30mm	75	30	8	£240.00	£40.00	£66.00
35mm	85	35	10	£297.00	£52.00	£80.00
40mm	95	35	12	£314.00	£68.00	£113.00
45mm	105	40	14	£411.00	£86.00	£121.00
50mm	115	45	14	£450.00	£122.00	£126.00

Cost of keying parallel shaft and supply parallel key	$\frac{3}{4}$ " / 20mm to $1\frac{1}{2}$ " / 35mm.	Shaft dia - extra £40.00
Fitting a $\frac{1}{2}$ " coupling is extra	$1\frac{3}{4}$ " / 40mm to 2" / 50mm.	Shaft dia - extra £58.00
Notches for buk coupling inboard - £30		

The above prices are for shafts up to 3 mtrs/10 ft: Longer lengths subject to individual quotation, as are, different tapers and special requirements. Sizes and specifications may vary, surcharges may apply, check when ordering.

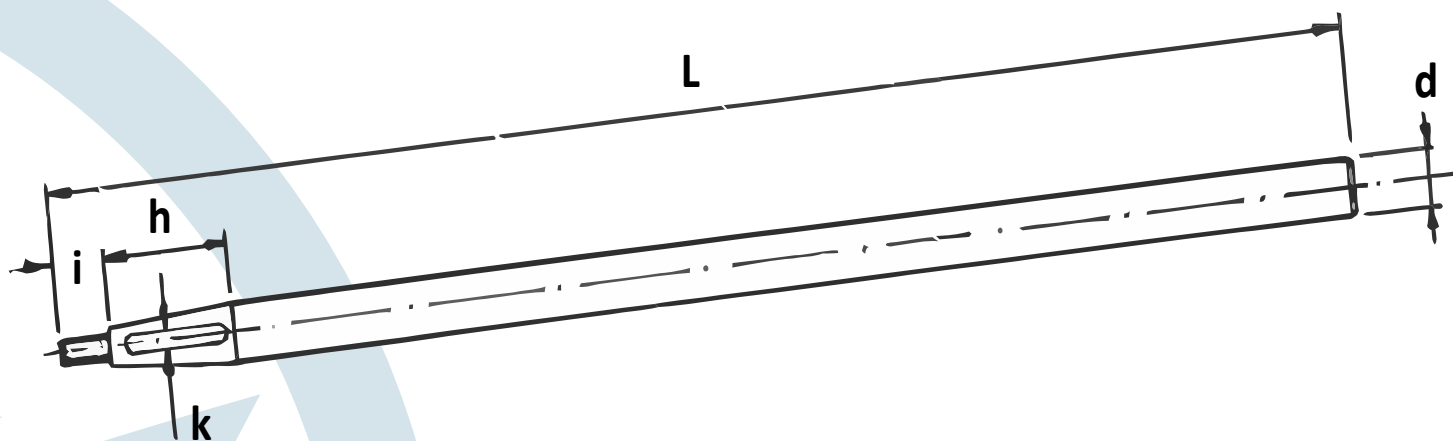

If your order uses almost a complete bar with practically no waste, we might be able to reduce the cost to you. Bar lengths are 3 or 4 Metres.  
Please ask at time of order to check is a cost reduction applies, otherwise the shaft will be charged as per the cost chart above.

Boxes can be supplied for transport / export.

**Note:** All above prices are based on current costs, these may be amended in the case of escalating material prices, please check before ordering.

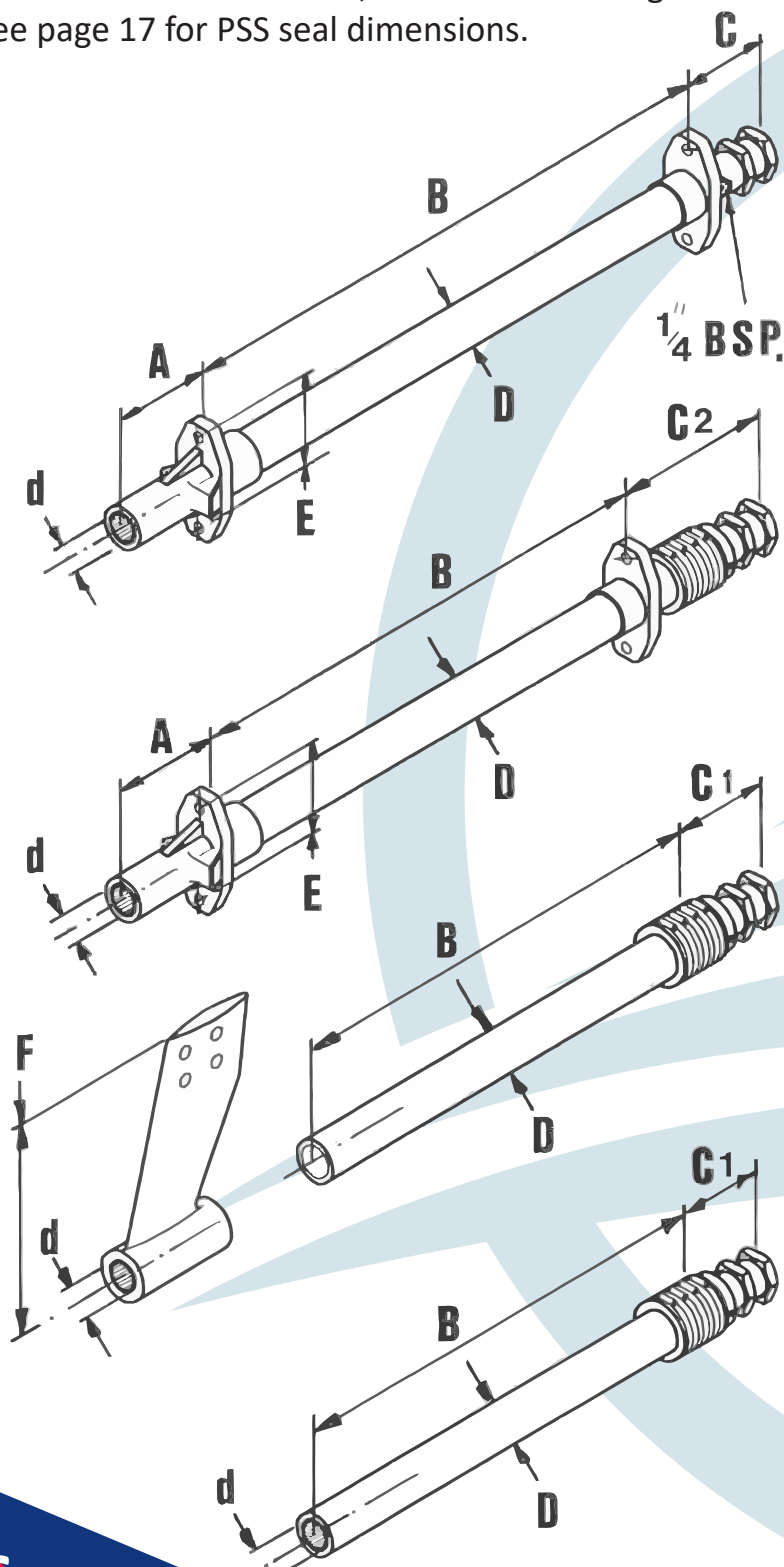

POA= Price on application.      SHAFT STRAIGHTENING FROM £70

# How to order your stern tube assembly

1. Select the stern tube assembly from types 1, 3, 4 & 5.
2. Specify shaft diameter 'd'.
3. Specify length 'B'.
4. Specify length 'A' if different to standard, see table on page 3.
5. Specify PSS seal, Tides Marine seal or traditional type gland as drawn below.

Please note dimensions C, C1 and C2 are for guidance only and relate to traditional type gland. See page 17 for PSS seal dimensions.

## TYPE 1

Water scoop outboard bearing, brass tube, fixed flange inboard, nut type traditional gland. (Stud type over 1  $\frac{3}{8}$ " 135mm)

## TYPE 3

Water scoop outboard bearing, brass tube, inboard mounting flange, flexible inboard bearing, nut type traditional gland. PSS seal or Tides Marine seal (Stud type over 1  $\frac{3}{8}$ " 135mm)

## TYPE 4

Plain Epoxy Glass tube & flexible nut type traditional gland or PSS seal or Tides Marine seal. (Stud type over 1  $\frac{3}{8}$ " 135mm) 'P' Strut and cutlass bearing (see separate listing for further detail) can be used with 'A' bracket etc.

## TYPE 5

Epoxy Glass tube with cutlass bearing outboard, flexible inboard bearing and nut type traditional gland or PSS seal or Tides Marine seal. (Stud type over 1  $\frac{3}{8}$ " 35mm)

**Limited Stock**

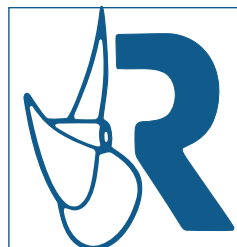

**RH Only**

- Prices include standard taper boring & keyslot 1 in 10, 1 in 12 & 1 in 16 only  
1 in 14 & 1 in 20 £25 net surcharge.
- Available in left & right hand & full range of popular pitches  
(pilot bore less £50 up to 17" and £60 above 17").
- Sillette stock range M12 - 12" to 16" Dia: K11 - 12" to 18" Dia: E12 - 12" to 18" Dia in righthand
- E13 - 10" to 22" Dia, C7 - 16" to 22" Dia: 0Propellers may not be of Radice origin or specification. (See Above)
- Propeller material ot/man, specially formulated for Eliche Radice propellers only.  
It has good strength characteristic and a good resistance to corrosion.  
Copper 53/56% Manganese 1.8/2.4% Nickel 1.5/2.0%

# Radice Blade

## 2 & 3 Blade Bronze Propellers

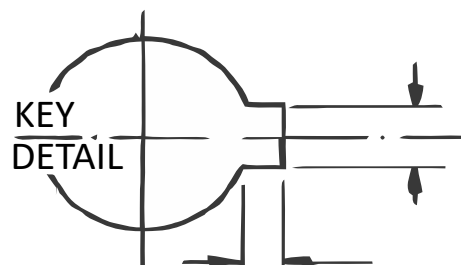

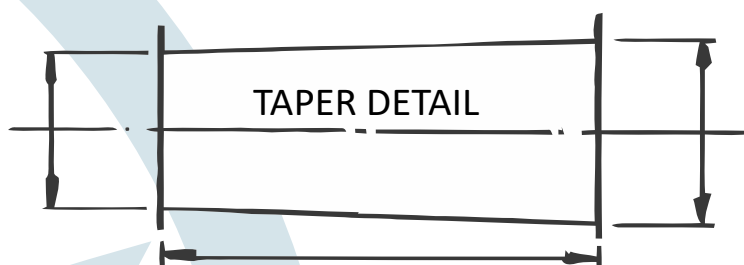

**ELICHE  
RADICE**

Continued.

Mechanical resistance  $R > 535 \text{ N/mm}^2$ , yield strength  $> 220 \text{ N/mm}^2$ , elongation  $> 25\%$   
In most cases it is not necessary to specify mibral (Nickel Aluminium Bronze) which would add 30% to above prices.

- When ordering please specify following dimensions for bore & keyslot and confirm if they relate to propeller hub or shaft for folding propellers also specify thread ie.  $\frac{3}{4}$ " BSF - M16 x 1.5 pitch etc

- Propellers correctly supplied to your order are not returnable.

The Radice Company, established in 1919 has always been one of the most advanced in designing and manufacturing any type of propeller, from small outboard propellers to ship's propellers up to 4 mtr in diameter. Due to their policy of continuous development, specification may change without prior notice, please check when ordering. Prices subject to change without notice.

## EPOXY GLASS TUBE

Ground, Unmachined GRP tube in lengths of 4 ft/ 1219 or less.

NB. 2 ft lengths charged at 65% of 4 ft price up to 1 3/4" bore		
Bore dia.	Wall thickness	Price
1 1/4" (32mm)	1/4" (6.4mm)	£138.00
1 3/8" (35mm)	3/16" (4.8mm)	£121.00
1 1/2" (38mm)	1/4" (6.4mm)	£176.00
1 3/4" (45mm)	1/4" (6.4mm)	£192.00
2" (51mm)	1/4" (6.4mm)	£223.00
2 1/4" (57mm)	1/4" (6.4mm)	£236.00
2 1/2" (64mm)	1/4" (6.4mm)	£269.00

## BRASS TUBE CZ121 or CZ126

Depending on availability

Per 1ft   300mm sawn to length & unmachined or with standard thread each end add £45.00			
Outside dia	Wall thickness		Price
1 1/2" / 38mm	1/8" (32.25mm)	10SWG	£46.00
1 3/4" / 45mm	1/8" (32.25mm)	10SWG	£52.00
2" / 51mm	1/8" (32.25mm)	10SWG	£64.00
2 1/2" / 64mm	1/8" (32.25mm)	10SWG	£91.00

## BRASS KEY MATERIAL

for propeller shafts, cut lengths

For short key with rounded ends to fit tapered portion of propeller shaft take price as for 300mm cut length, and specify length you require.

Square (imperial)	Price per 300mm	Square (metric)	Price per 300mm
3/16"	£14.00	5mm	£16.00
1/4"	£16.00	6mm	£17.00
5/16"	£18.00	8mm	£18.00
3/8"	£23.00	10mm	£23.00
7/16"	£26.00	12mm	£30.00
1/2"	£27.00		

## STERN GLAND HOSE

Available in these sizes

Specifically for use with sterngear, oil & grease resistant, wall thickness between 8 and 10mm.

Inside dia	Price per 100mm	Inside dia	Price per 100mm
1 1/4" (32mm)	£22.00	2" (51mm)	£31.00
1 3/8" (35mm)	£23.00	2 1/8" (54mm)	£32.00
1 1/2" (38mm)	£24.00	2 1/4" (57mm)	£35.00
1 5/8" (41mm)	£26.00	2 3/8" (60mm)	£39.00
1 3/4" (45mm)	£28.00	2 1/2" (64mm)	£41.00
1 7/8" / 48mm	£30.00	2 3/4" / 70	£46.00

## "SERIES ONE"™ Shaft Seal

The simple, no maintenance, easy to fit shaft seal.

- ELIMINATES GLAND PACKING AND GREASING
- ALL YOU NEED IS A SCREWDRIVER TO FIT AND FORGET

SERIESONE™ SHAFT SEAL, consists of a convoluted connecting hose, 4 stainless hoseclips and a one piece composite body with lip seal fitted. All for less than the price of an "old fashioned" packing seal.

**Note:** Water feed recommended.

Sizes up to 8" 1200mm Shaft diameter, available for SURESEAL™

To order we need to know the shaft diameter and outside diameter of the stern tube

**Note:** Must be water fed.

All prices are subject to UK VAT.

# PSS SHAFT SEAL

All shafts are precision straightened

## PSS Shaft Seals

The PSS Shaft Seal uses the highest quality materials and manufacturing procedures to give a drip free performance with zero wear to the propeller shaft and the capability of operating safely up to 500° F.

They require no lubrication other than the water they are working in. Except over 12 knots or a bearing inboard.

A fitting is provided on the carbon flange to accept a feed from the engine's water exhaust to assist cooling.

### Features:

- Dripless operation
- Maintenance free
- Eliminates shaft wear
- No mess or corrosion
- ABS approved
- Over 100,000 in successful operation
- Suitable for leisure & commercial craft
- Unaffected by engine movement or vibration
- Metric & imperial sizes for shafts from 20mm - 3/4" to 100mm - 4"
- The carbon/graphite flanges & rotor should never need replacing under normal operating conditions.

## Technical Specifications:

High Density Carbon Graphite Flange

Once installed and operational the carbon/graphite face will polish the stainless steel rotor during the initial first few minutes of operation ensuring a perfect fit thus eliminating any drips or spray.

The ultra dense carbon/graphite composite has a maximum operating temperature of 500° F, guarding against failure by over heating as can occur on rubber and plastic based seals.

## Stainless Steel Rotor

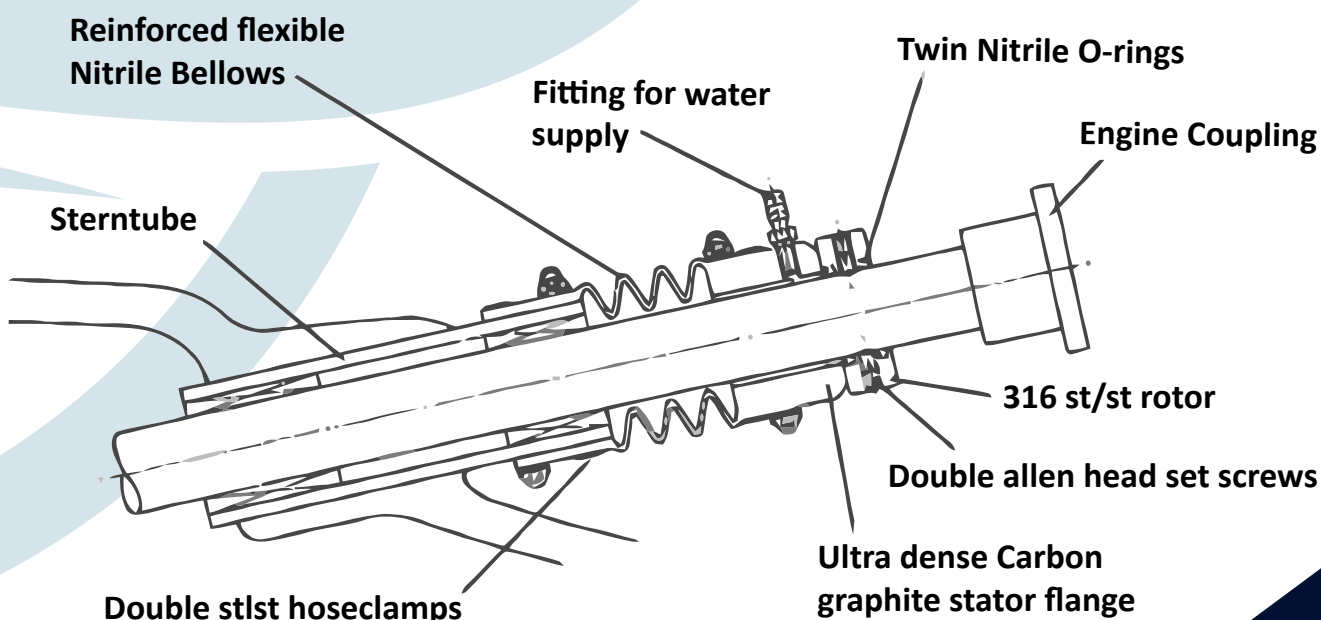

The one-piece, 316 grade stainless steel rotor is secured to the propeller shaft with double set screws. The twin nitrile 'O' rings are stationary and do not wear.

## Reinforced Bellows

The heavy reinforced nitrile bellows are resistant to petroleum based products and retain their preset dimensions. They provide the best combination of durability, strength and elasticity.

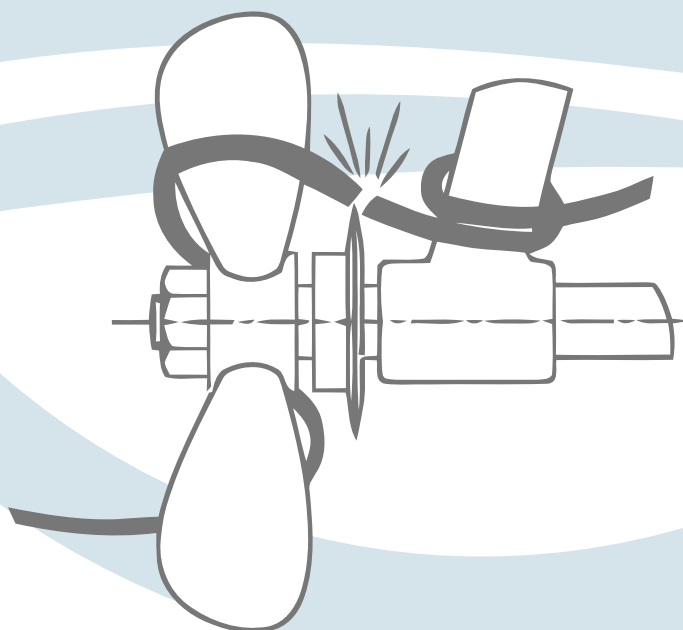

## The Principle

The seal is created by contact of the carbon face against the rotating stainless steel rotor. A hydrodynamic bead of water between the carbon seal and rotor provides lubrication. The carbon seal and rotor provides lubrication. The carbon seal and bellows assembly is fitted to the stern tube by twin stainless hose clamps. Contact with the rotor is assisted by water pressure which helps to cool the assembly. Seal contact is unaffected by engine laterally or fore and aft. They provide the best combination of durability, strength and elasticity.

## The Leading Disc Type Rope Cutter

Unit Type & Price	For Shaft Diameters (ALL EXACT SIZES)	Blade Dia.	Unit Width	Min Gap Required
SLIDE-ON - £98.00	20mm, 22mm, 25mm, 30mm ¾", ⅞", 1", 1⅛", 1¼"	80mm 3.15"	12mm 0.47"	18mm 0.7"
SLIDE-ON - £104.00	30mm, 35mm, 40mm 1 ¼", 1 ⅜", 1 ½", 1 ⅝"	100mm 3.9"	12mm 0.47"	18mm 0.7"
SLIDE-ON - £119.00	45mm, 50mm 1 ¾", 1 ⅞", 2"	120mm 4.7"	12mm 0.47"	18mm 0.7"

## The Leading Disc Type Rope Cutter

### Please Note:

Not all Extra Large cutters are carried in stock, please allow 3to 4weeks for delivery.

All Prop Protectors are made by British craftsmen from the finest quality marine grade stainless steel to BS970-316-S31. Each unit is supplied with A4 quality stainless steel fasteners, Allen key wrenches, thread locking compound, safety warning labels and fitting instructions.

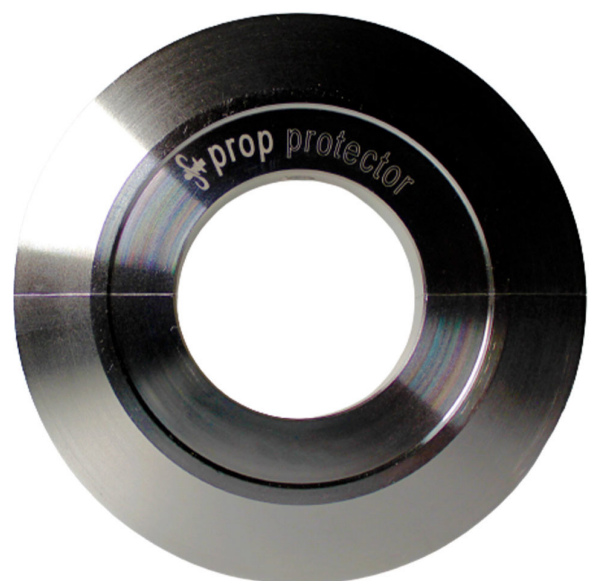

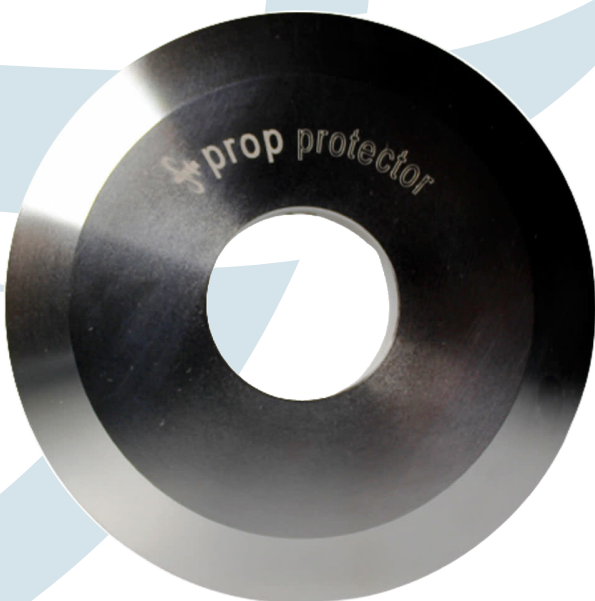

### UNDERWATER INSTALLATION

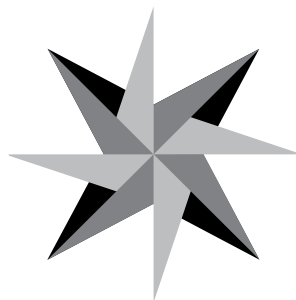

One of the unique features of Prop Protectors is that they can be installed with the vessel afloat. However, the screwlock supplied with each cutter is intended only for use with the vessel out of the water as screwlock will not cure under water.

Owners wishing to carry out an underwater installation should not use the fasteners or screwlock supplied but should order our special self-locking fasteners that we supply specifically for this purpose.

### These are available as an optional extra and prices are as follows:

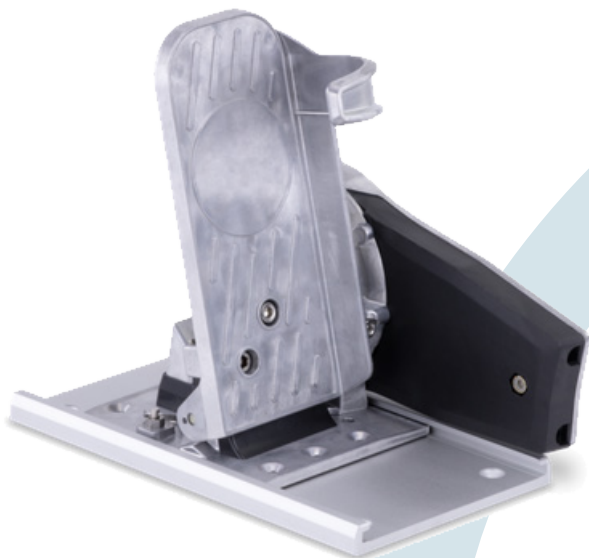

- For all Slide-On cutters a single set screw is required for which the cost is £2.00
- For Standard Clamp-On cutters, one setscrew and two cap head screws are required for which the cost is £8.00
- For all Extra-Large Clamp-On cutters, one setscrew and two cap head screws are required for which the cost is £12.00

# ENQUIRY form for new or replacement propeller

Please remember that any incorrect information you supply is likely to result in an incorrect propeller being specified, for which we cannot be responsible. Remember to advise us if you have a saildrive. Any size we advise is an opinion only and subject to trials and developments at the purchasers cost.

Please advise any restrictions to good water flow around the propeller. i.e. behind a wide keel, in an aperture, shaft to one side of keel, etc. and any factors limiting diameter, by specifying dimension from centre line of the propeller shaft at the point where the propeller fits, to the under side of the hull, or closest point of the aperture. For folding propellers, please advise distance available astern from large end of taper. When rudder is fitted close to propeller, or in an aperture.
