SONIC CATDRIVES

CAT-DRIVE 2

6-50 bhp Petrol 6-37 bhp Diesel DIRECT DRIVE

4 LENGTHS AVAILABLE

- Designed in the form of directdrive system to allow inboard engines to use their existing gearboxes.
- Facilities for charging ship's batteries with engine whilst having outdrive leg raised when under sail.
- Reduced drag with slimmer underwater shape above cavitation plate.
- Astern lock either automatic or manual. – cable operated.
- Increased angle of leg lift to 68°
- Simple 6 bolt fixing. Template supplied
- Engine/gearbox, input rotation LH or RH
- Steerable, affords extra manoeuvrability to your cat.
- 16" Diameter propeller for the thrust you need
- Marine grade alloy casing
- Nickel alloy gears
- Stainless steel fastners
- Double oil seals (Propshaft)
- Sacrifical anode provision

SONIC TRANSMISSION UNITS ARE DESIGNED WITH SERVICE IN MIND. THE RUGGED BUT REFINED CONSTRUCTION ENABLES COMPLETE OVERHAULS TO BE CARRIED OUT WITH THE MINIMUM TOOLS. A FACILITY NOT ALWAYS POSSIBLE WITH OTHER TYPES OF MASS PRODUCED DRIVES.

HYDRAULIC PUMPS & PISTON SETS

for SONIC/Enfield Stern-Drives and Cat-Drives

Standard hydraulic piston and pump controls are suitable for fitting to all the Sonic Stern Drive Range, in addition they are available for many other applications.

With each operation of the control, the hydraulic system is self bled. Pumps are made from aluminium alloy. Each end of the piston is machined to accept a rod type fitting. Bore size standard 1". Stroke 3".

General Characteristics

Max. Power: Max. Torque:

50 h.p. at 5000 RPM PETROL
40 h.p. at 3600 RPM DIESEL

max input torque = Engine torque × Gear box ratio.

TRANSMISSION

DIRECT DRIVE 1 : 1

PROPELLER

406mm / 16" MAX DIAMETER FULL

RANGE AVAILABLE LEFT OR RIGHT HAND.

STEERING TILLER ARM TYPE 30° TO PORT

30° TO STARBOARD, 9" CABLE STROKE.

REVERSE LOCK REMOTE MANUAL OPERATION

or Autolock, with manual release.

TILT FOR SAILING MANUAL LIFT OR HAND

HYDRAULIC TO 68° MAX.

MOUNTING PAD ANGLE

7° or 12° CAN BE 5°

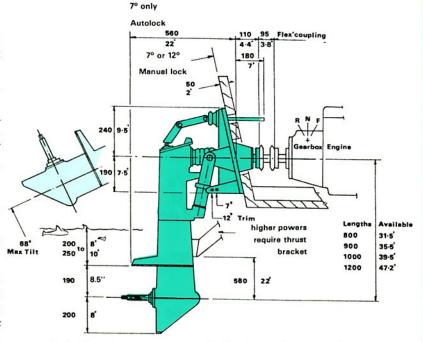

MAX.

MAX TILT.

APPLICATION CONSULT SILLETTE WITH YOUR SPECIFICATION. 900 M/M, 1000 M/M and 1200 M/M UNITS REQUIRE SPECIAL INSTALLATION WITH CERTAIN ENGINES. DETAILS SENT ON RECEIPT OF YOUR CATAMARAN AND ENGINE SPECIFICATION.
